

COACH EDUCATION

**National Soccer Coaches
Association of America**

NSCAA APPROVED PARENT AND COACH CLINICS.

Give your parent coaches the information they need to provide well planned practices and positive experiences for their players.

Challenger Sports has partnered with the National Soccer Coaches Association of America to provide over one thousand coach education programs for local youth soccer clubs, leagues, park and recreation departments and YMCAs throughout the USA and Canada. Aimed primarily at parent coaches with limited experience, Challenger will provide essential instruction in coaching methodology, demonstration of core soccer techniques and will explain how to run a progressive soccer practice. Attendees will go away with more confidence, more knowledge and an understanding of how to really help their players learn and develop rather than just practice!

Upon completion of the two-hour clinic, attendees will receive an NSCAA certificate, NSCAA patch and an introductory membership to the NSCAA and access to their on-line library of articles and training plans. In addition, all NSCAA members receive special discounts from the many NSCAA partners. Plus, when Challenger hosts a coaches

clinic in your community, each of the attendees will receive an NSCAA approved coaching manual packed full of coaching tips, games and practices.

"This is an exciting partnership that will help introduce the NSCAA's coaching education program to an audience that can take full advantage of the information delivered," said NSCAA CEO and Executive Director Joe Cummings. "The volunteer parent often is the first coach players have, so it is important that they have a solid understanding of coaching fundamentals. This partnership with Challenger Sports will help extend our reach to these coaches and bring new members into our association."

Contact us now to bring a FREE NSCAA parent coach clinic to your soccer community!
