What does SportsManager offer?

- Integrated sports management solution that will save hundreds of hours of volunteer time and provide better communication with Players and Adults.
- Online registration and management for any number of sports or activities.
- SportsManager supports both online registration and paper (manual) registration.
- Data from other systems can be imported into SportsManager saving prior history.
- Auto-scheduling, standings, scores, emailing, seasons, leagues, teams, roster mngt, players, adults, volunteers, fields, draft reports, medical conditions...
- Automated emailing features: auto-score collection, email rosters to all coaches, email player team assignments to all families, email teams, email parents, email volunteers.

What is our Vision and what makes us unique?

Our vision was to be the first to offer a completely integrated sports management solution that utilized the latest on-line internet, email and database technology. Our focus was the integration of these major solutions that were previously sold separately.

How We Can Help

Who Do We Help	How Do We Help
Administrators	Comprehensive reports for registration management and financial management including debt tracking and error checking.
Registrars	Support for both paper and on-line registration. Gather player information and adult volunteering during registration.
Division Directors	Tools that make team formation and roster management a snap. Track player on teams but not register or registered but not on teams.
Coaches	One step team communication plus automatic rosters and schedules. Receive your complete roster, parent info prior to the season start.
Families	Personalized schedules that combines all the children's schedules. Email confirmation for registration and player team assignments
Field Schedulers	Full automatic, semi-automatic and manual field scheduling for regular seasons, tournaments and rescheduling for rain-outs
Official Assignors	Manage your referees or umpires, scheduling, reports, confirmations.

How automation will benefit your Organization?

Automated functions in SportsManager will save hundred of hours of volunteer time on routine administrative and organizational tasks. Make it easier for Volunteers to help your organization by eliminating “black hole” task and providing the tools they need to manage their areas. Take advantage of the built in emailing to save time and improve communications. With SportsManager you can email Adults by volunteer type, by player age, by team or by registration status. The Auto-scoring module sends an email to coaches the day after the game, eliminating the need to chase after scores. Automatically schedule around black outs for teams/fields/days and re-schedule rain outs. With automation you’ll have more time to improve the quality of your sport while also increasing the involvement of the adults through better communications.

Who are SportsManager Major State and Regional Customers

- US Adult Soccer Association EPSA
- National Adult Baseball
- USSSA Baseball
- NH State Youth Lacrosse Assoc.
- Kansas City Metro Soccer League
- Mass Bay Girls Lacrosse League

What are they saying

“The decision was based on the functionality as well as the stability of your SportsManager application. Some other solutions were too narrowly focused on the registration and team placement....”

Kelly Kemp-Mansfield In Town Program Director

Data Ownership, Confidentiality and Security

Your organization will no longer be dependent on one person for data management.

Data Ownership & Confidentiality

You own the data.
Data is kept confidential.
4 levels of password access.
We don’t store credit card #s.
No Advertising, No Marketing.

Data Security

Redundant disk.
Fail safe design-no delete.
Backed up and stored off-site
Secure lock/HTTPS: for reg.
Latest security patches.
Firewall software and hardware.

Understanding the structure of SportsManager

The structure is important to know because it helps you understand how different modules and information will work together:

Basically there are 4 main levels of information:

The highest level is the **Organization Level** and would contain information such as your town program name, address, contact email, telephone, board members, adults, schedules, registration options. These are dependent levels so a season can't exist without the organization and a league/group can't exist without a season and a team can't exist without a league/group. There is no limit to the number of Seasons, Leagues or Teams. Seasons can represent a typical season like Spring Lacrosse or can be used to manage an Indoor season, tournament or camp/clinic. Once a season and League are defined then the registration options for those become automatically available.

Organization Level

Seasons

Leagues/Groups (with Divisions or subdivisions)

Teams

Rosters

Management

Just under the Organization level we also have Schedules:

Schedules

Games

Scores (also completed game status, forfeits, summaries)

Standings (will apply to scorable games only)

In a similar way we have the Adult and Player Information:

Adults (Adults might or might not have associated players)

Players (All players must have an adult defined first)

Finally all registration data exist at the Org. level and contains links to other areas of the system like players and season/league information,

Answers to questions

Payment Options

Job Assignments (allow you to assign adults to jobs and track them)

Organization, Seasonal, League level or Team jobs/assignments

What are the costs and who pays, software updates, technical support and data import

There are two fees associated with utilizing SportsManager, a yearly subscription fee and an on-line registration processing fee. The clubs pay an annual subscription fee for use of the software that depends on the approx. number of players. The on-line registration processing fee is 5% (or \$2.00 plus 2.5% for total amounts under \$80). Registrations collected by SportsManager are paid back to your organization twice a month. The club can choose to have the parents pay 100% the registration processing fee or they can include the fee in the registration cost. There is no charge for coaches or volunteers to register and no per team charge. There is no charge for technical support or software updates. If an organization has data they want imported into SportsManager we charge a one time data import fee which is based on the amount and type of data we need to import.
