

Photos in SportsManager

ALL travel players and coaches must have a head shot in the SportsManager system. This has always been the case for age groups U12 and above divisions 1 & 2, now it is being extended to all – U10 and up, all divisions.

Rosters will NOT be approved by our league unless and until ALL players and coaches have a photo in the system and it appears properly on the roster. If it gets to the week of the first games (first week of April) and rosters have not been approved due to missing photo(s), **THOSE PLAYERS WILL BE REMOVED FROM THE ROSTER AND INELIGIBLE TO PLAY UNTIL A PHOTO IS ADDED.** Otherwise, the team will not have an approved roster, and the game would be forfeited.

All of the above options are bad. Please add a photo ASAP.

The photo requirements are very specific, so please read carefully. The photos MUST:

1. Be a head shot ONLY. Just the top of the head to about the collar bone. NO full body pics.
2. The player's entire face must be in the photo facing the camera. No side shots, not face-cut-off shots.
3. The image needs to be bright enough so that the player is easily identifiable in the photo when the photo is printed on the roster. These are basically thumbnail size photos, which is why the pic has to be pretty much a zoom in on the player's face.
4. The player must not have anything obscuring their head/face – NO hats, NO sunglasses, please try to keep long hair pulled back away from the face, etc.
5. There cannot be any other people in the photo. Do not try to take an existing group picture and crop just to your child. What will happen is the resulting cropped pic will be too small/too low res when reproduced to show correctly on the rosters
6. Please try to use a solid background.
7. Make sure the photo is oriented properly once uploaded – if you need to rotate it, click on the photo and click rotate. There is also a crop option so if you need to trim the photo a bit you can, just don't overdo it.
8. The photo MUST BE CURRENT. If your child is in U12 and her picture is from U5, it won't work.

The photo should look something like this:

The very easiest thing to do will be to take a close-up phone pic of your child/ren against a solid color backdrop using the flash. Remember, these photos should be more mugshot than glamour shot. It doesn't have to be pretty, just utilitarian.

Once you have the pic, you can log into SportsManager from your mobile device and upload the pic directly. Otherwise, you may have to e-mail it to yourself and do it on a computer (which, with SportsManager, may be easier anyway).

Here's the instructions:

1. Go to <https://www.sportsmanager.us/TantasquaSoccer.htm>
2. Be sure you log in as a PARENT when doing this
3. Once logged in, you will see all adults and your players listed on the left
4. If your player/adult coach has a photo already uploaded, and it is clear and it is current, you're done.
5. If you need to CHANGE a player or adult photo, click on the "EDIT XXXX" (where 'XXXX' is the player's name) and select 'Replace Picture' on the next screen. **NOTE:** the option to edit or replace the photo directly from the Parent dashboard is not currently working because SportsManager.
6. You'll be prompted to confirm and then the photo will be deleted.
7. Click the Add Photo button and upload the new photo. Rotate/Crop if needed

The attached document has a visual roadmap of these instructions. Please contact kadion@tantasquasoccer.com if you run into difficulty. Scroll all the way to the bottom of the e-mail to see the attachment.
