RE: Notification COVID-19 Contact

The purpose of this memo is to share with you the following:

It has been brought to your coach and the league's attention that a player on your team has been in contact with an individual with COVID-19. The player took the Saliva-based COVID test that has a 94% accuracy rate and thankfully it was negative.

We contacted the state's COVID-19 Office Hotline and described the situation. Due to the accuracy of the test and the negative result, they have determined that there is no need to cancel games or to quarantine anyone on the team.

We are sharing this information with you to assure you that all necessary steps have been taken.

Feel free to call me and or email me if you feel the need to further discuss this issue.

Andy Paquette
